# MENLO PARK RECORDER

A PAPER DEVOTED TO THE BEST INTERESTS OF MENLO PARK AND SAN MATEO COUNTY

VOLUME 7 — MENLO PARK, SAN MATEO COUNTY, CALIFORNIA, FRIDAY, JANUARY 17, 1930 — No. 15

## Golden State
### News of Interest to All

At a meeting of the Granada Chamber of Commerce a resolution was passed to request the Pacific Telephone Company to link up Granada phones with the Reseda exchange, south of Granada. At present, the Granada phones are served by the San Fernando office. A betterment of service is sought in the change, the resolution states. A resolution also was passed to ask the Los Angeles City Council to erect a fire station in that section. The nearest fire station is at Van Nuys, seven or eight miles away.

The Southern Pacific Company received permission from the State Railroad Commission to abandon its non-agency station at North Vallejo. Since the auto stages have replaced passenger trains running out of South Vallejo, the station has been of no value to the company, it is said. In removing it one of the old landmarks of Vallejo will be gone.

Motorists traveling over Golden State Highway, south of Bakersfield who fail to heed warnings issued by Capt. Roy Baylen's squad of "stop-and-check" traffic patrolmen, will be prosecuted to the full extent of the law. This was the announcement made by Justice of the Peace Robert Davis, before whom are brought all traffic violators taken into custody by traffic patrolmen working under jurisdiction of the California highway patrol. According to Davis, who has been enlisted by Capt. Gaylen in his crusade to prevent accidents on the thirty-two-mile straightaway, every motor vehicle operator who pleads guilty to a traffic violation charge, or who is convicted of the charge, will be fined or jailed to the limit. Announcement of the drastic plan was made following a conference in which the traffic situation south of Bakersfield was thoroughly discussed. Recently speeders on the fog-dimmed, slippery highway have been assessed approximately $10 apiece, but in the future they will receive the limit of $50; reckless drivers heretofore have escaped with a small fine, but from now on they will get the limit of $250 fine, ninety days in jail, or both, Davis said.

Seven quartz and two placer mine locations were recorded in Tuolumne County in December, bringing the total for the year to 140 quartz and 36 placer claims.

San Jose will boom in 1930, according to building projects now contemplated there. The total value of building permits, $2,467,060 for 1929, is expected to swell to $7,000,000 or more next year, according to M. C. Woodruff, city building inspector. Included in the 1930 projects are city schools, $1,180,000; Southern Pacific depot and subways, $2,000,000; two new hotels, $750,000 and $500,000; theater, $750,000, two new stores, $400,000, and more than a million dollars is expected to be expended on new residences.

Out of 130 sites originally offered, only four are now under consideration for the new prison and state hospital for the insane in Southern California, it was announced by A. R. Heron, director of finance. Location of the four sites now being considered were not divulged. Final selection will be made in a few weeks, based on recommendations of a committee.

Appropriations for a lighthouse to be built on the extreme easterly end of Anacapa Island were revealed at Ventura in a public notice received by the Postal Department asking for lighthouse bids. The work specified includes upper and lower landings, concrete stairs to and from landings; reinforced concrete retaining wall at upper landing; permanent and temporary roadways; concrete rain shed with piping system, two 50,000 gallon redwood tanks, and two complete derricks at landing platforms.

Detailed plans are being made for the Imperial County Midwinter Fair to be held at Calexico early in February. Bids have been opened and are expected to soon be awarded for construction of the main administration building, which is to be used as a permanent exhibit building after the fair is over. Exhibits are to be housed in three large tents this year. The permanent buildings will be ready for the following fair.

Bids on sixteen highway projects in California will be opened this month. Total cost of the projects will be $4,500,000—the largest volume of state highway work in any one month in the history of the California state highway system. Among the bids will be that of covering grading of 7.4 miles of the Bayshore highway from San Mateo to Redwood City.

The state Department of Public Works announced it was accepting as satisfactorily completed the contract for a graded roadbed with crushed rock surfacing on three miles of the Redwood Highway from Arcata to a point north of Mad River. The contractors, H. J. Kennedy and Daniel Bayles, bid $92,700.

The new San Jose city directory for 1930 gives San Jose a population of 77,820, an increase of 820 over the figures of last year. An increase of nearly 1000 telephones in services is noted in the directory, which places the number of new telephones in service at the beginning of the new year at 20,109. Last year's figures were 19,218.

Permission was granted by the Railroad Commission to the city of San Diego to construct Anna street at grade across the track of the Atchison, Topeka and Santa Fe Railway Company.

The Southern Pacific Company was granted authority by the Railroad Commission to remove its passenger shelter shed at the non-agency station of Boyes Springs.

A rare and valuable tree, a white red-bud, has been received at Sequoia National Park from Bob Amyx of Niles. Amyx was formerly of Visalia. The only wild red-bud known in Tulare county grows in the Badger district, above Auckland.

The Railroad Commission granted permission to Sierra and San Francisco Power Company and Pacific Gas and Electric Company to construct and operate a water storage project estimated to cost $430,000. Applicants propose to construct a dam immediately downstream from their existing Lyons Dam, on the South Fork of the Stanislaus River, and thereby create a storage reservoir having a capacity of 5500 acre feet, in place of the present reservoir of 839 acre feet capacity.

New building totaling $509,051 was either completed or started in Martinez during 1929, according to John Briones, building inspector, who recently submitted his annual report.

A check for $181,593 was paid to the state treasurer in payment of the State Compensation Insurance Fund's premium tax for the year 1929, according to Frank J. Creede, manager of the fund. The State Compensation Insurance Fund is a self-supporting enterprise not subsidized by the state in any way, and is one of the largest taxpayers in the state. In 1928 the fund wrote more than $7,000,000 in premiums and pays the same tax as other insurance companies, Creede said.

Fresno playgrounds recently received $5000 from the estate of the late Frank Romain, to be used in building a playground for small children. The playground probably will be erected in the center of Roeding Park, at the request of the donor.

With a total value of $459,023, Vallejo building permits for 1929 exceeded those for 1928 and were within a few hundred dollars of the record set in 1927, according to the figures of Vallejo's city clerk, Alf E. Edgcumbe. The Pacific Gas and Electric Company was granted a permit amounting to $14,000 for the construction of a reinforced concrete lamp-black separator at the Maryland street plant. September stood out as the banner month of 1929, with permits totaling $74,450. March was next with $67,078.

California's state park system was virtually enriched by 6000 acres of outdoor playgrounds, ranging from virgin mountain forests to wide expanses of sandy beach. This total acreage was practically negotiated during the past year, it was reported by Fred G. Stevenot, director of natural resources, in reviewing the year's activities of the State Park Commission. Acquisition already approved by the park commission includle 40 acres of the Coronado military reservation beach lands, San Diego County; several hundred acres of virgin stands of Redwoods in Humboldt and Del Norte Counties, and the 163-acre Bliss memorial park in El Dorado County. Purchases of 4000 acres of beach land on Mission Bay, San Diego County, has also been authorized, while 520 acres have been condemned on Mt. Tamalpais.

The federal government offered to find homes for four San Luis Obispo County Indians who are about to be evicted from land upon which they have lived for many years and claim as their own. Mrs. red Iverson, Indian commissioner at Paso Robles, announced the receipt of instructions from Washington to provide for the Indians, Jose Bylon, 60; Mary Roses, 65; Kleno Hill, 50, and Roman Roses. The Indians have fought fiercely against eviction, declaring they would rather die than leave their homes.

Fees collected by the county recorder at Stockton during 1929 showed an increase of $552.15 over 1928. Instruments recorded in 1929 aggregated 19,605 as against 18,647 for the previous year.

Petitions for the consolidation of Lone Tree school with Palermo district school have been circulated in the two districts. Lone Tree school burned recently. Incendiarism was suspected.

Los Angeles will be host to 100 conventions during 1930, a recent chamber of commerce report stated. This represents a drop of 31 from the number of conventions held there in 1929

Appropriations of nearly $2,500,000 for hospital and other construction at five of the branches of the National Home for Disabled Soldiers will be sought of Congress during the current session, according to word received by Dr. A. C. Carlton, California chairman of the American Legion's rehabilitation commission. The hospital facilities of the national homes including those at Sawtelle in southern California, are becoming of more and more importance, according to Dr Carlton.

The Southern Pacific Company was recently authorized by the Railroad Commission to construct a main line track at grade across the Madeline-Alturas highway near Madeline, Lassen County.

Stockton Wharf and Warehouse Company was authorized by the Railroad Commission to lease to Lawrence Warehouse Company the warehouse of the former in the city of Stockton for two years, and Lawrence Warehouse Company has been authorized to operate the same under its own tariffs.

Upon request of applicant, the Railroad Commission dismissed the application of San Joaquin Light and Power Corporation for authority to issue and sell $2,000,000 par value of its common capital stock to Western Power Corporation.

## BEST FIGHT IN A. E. F. WAS "THE BATTLE OF PARIS"

"The Battle of Paris," a phrase that needs no explanation to members of the A. E. F., is the title of the all-talking and singing feature coming Friday, Saturday and Sunday to the Varsity theatre at Palo Alto.

"The Battle of Paris" pictures the lighter side of the war and depicts the soldier of all the Allied armies in search or relaxation from the grim business of fighting.

Gertrude Lawerence, popular musical comedy star, takes the lead, singing a bevy of old and new tunes. Chas. Ruggles, the clown in "Gentlemen of the Press' and "The Lady Lies," is also featured in the cast.

The story is that of a young street song seller who lifts a young artist's wallet and when she is in a mood of remorse, returns it to him, he begs her to stay and model for him. She does and they fall in love. Along comes the war and the lover leaves for the front. She turns to nursing in the hospitals and becomes the friend of three strange soldiers who call themselves the three musketeers. Her lover returns and becomes entangled with another girl. The three musketeers come to her aid with but little success.

Then when she is kidnapped her lover comes to his senses and a whirlwind finish follows. Throughout the production Miss Lawerence sings in her own inimitable manner, popular airs of the war days as well as a number of new songs that have been written for her in "The Battle of Paris."

## SCHOOL GRADUATES GIVEN BANQUET BY MOTHERS

A banquet was given the graduates and under-graduates of the Central school Wednesday evening by the mothers of the graduates and the Parenteacher Association and was attended also by the teachers of the school.

The banquet was served at six o'clock in the evening and was followed by the playing of games.

Joe Veverka, local Southern Pacific agent, has returned from the hospital much improved in health after his operation. While Joe is still a ittle under the weather he is rapidly regaining his strength.

A dental clinic opens at the Central school on January 22 and will be held from 9 to 12 a. m. All mothers are requested to have their children registered.

## NORMA SHEARER'S LATEST TALKING DRAMA AT NEW STANFORD SUNDAY

The ease with which Norma Shearer steps from one characterization to another of wide departure will never cease to be a wonder to her fans.

When she played in "The Trial of Mary Dugan" it was something of a startling revelation. Then she went right into "The Last of Mrs. Cheyney" and won new laurels.

Now in "Their Own Desire," which opens Sunday at the New Stanford Theatre, Miss Shearer effects another equally surprising character transition, that of a very modern daughter who knows what she wants and how to get it. It is not a flaming flapper role, but rather a study of an intelligent young woman of today.

The new Metro-Goldwyn-Mayer all-talking picture is an adaptation of the novel from the pen of Sarita Fuller and is full f dramatic action and romantic charm. It moves swiftly along from an opening episode during a fast-played polo match, pauses only breifly in society drawing rooms, and reaches its climax when Miss Shearer and Robert Montgomery, her leading man, are lost in a motor boat during a storm on a lake.

Lewis Stone and Belle Bennett, as her parents, are perfectly cast; Helen Millard is capably alluring as the woman who ensnares the father, and Cecile Cunningham, Mary Doran, and June Nash are excellent in other supporting parts.

"Their Own Desire" was directed by E. Mason Hopper and James Forbes also handling the dialogue. The screen adaptation was made by Frances Marion.

## Industry Group Elect Officers For the Year
### P. C. Aubyn Elected Vice-President Of Organization

Officers and directors were elected at a meting of the Peninsula Industrial conference held in San Mateo Tuesday evening. Judge John J. McGrath of San Mateo, was re-elected as president of the organization. Philip C Aubyn of Redwood City, secretary of the Belle Haven Corporation, was elected vice-president. Fred H. Mahr, was elected to another term as secretary.

A board of directors was elected at this meeting. This is the first board of directors of the organization, the board being created by recently adopted by-laws. The directors elected were:

Mayor William Taylor, San Mateo; E. B. Hinman, Redwood City Chamber of Commerce; James S. James, Burlingame chamber of commerce; John H. Sullivan, Menlo Park chamber; L. O. Head, San Francisco chamber; Percy J. Shaw, South San Francisco chamber; Roscoe D. Wyatt, San Mateo county chamber; T. Louis Chess, San Mateo Heights Improvement Association; and John F. Leinen, representing the Civic League of Improvement clubs of San Francisco.

Three new member organizations were taken in the conference, an organization open to all companies or individuals interested in the industrial development of the county. They were the Western Pacific Railroad Company, the Southern Railroad Company, and Beresford Development Association.

A program of advertising for the water front of San Mateo county was discussed and will be carried out during the year.

## FATHER CAVANAUGH LEAVES FOR EUROPE

Rev. Father J. P. Cavanaugh, pastor of Mount Carmel Church, left Wednesday for a trip to Europe and will be absent from Redwood City for the next five months. With Archbishop E. J. Hanna he will go direct to Rome. Other priests will be in the party. Father Cavanaugh will tour the continent before returning. Father Cavanaugh was ordained at St. Patrick's Seminary at Menlo Park some years ago. He is the last of his class to visit the Eternal City, the other members having done so from time to time since the ordination.

## Activities Diversified At Menlo School

That the use of leisure time usually determines a boy's character is recognized fully at Menlo School, where a new centralized activity program has been instituted. Giving every boy a chance for voluntary participation in athletics, classes, and clubs without injury to his scholastic standing, it makes full provision for his recreational and avocational interests.

Every week-end he has the use of the tennis courts, swimming pool, gymnasium, and field; he may entertain himself in the Unin, or he may go on the occasional trips, attend the games at Stanford, write his letters and read. The chapel services on Sunday and the new matinee of comics and educational films make it almost impossible for life to be monotonous.

Scheduled as a part of the day's program, the activity period comes before the last class hour in the afternoon, giving the boy the chance to attend the assemblies, class meetings, club meetings or special study halls. Every week the boys attend the assembly program to hear a speaker or see an educational film, or they go to their class meetings.

If a boy is interested in music, he may join the band or glee club; if he likes acting and play producing, he may join one of the two dramatic clubs; if he is interested in the weekly newspaper r yearbook, he may become a member of one of the two press clubs. Once a week he may play chess, twice a week he may enjoy target practice with the rifle club, three times each week he may work in the shop of the handicraft club. The camera club, the science club, and the wild life club for Nature lovers furnish other opportunities. The Scouts and clubs hold their meetings in the scout den or around the new grill to work on their tests.

Yet no boy is required to join these clubs if he feels that he needs the time for study. However, with the plans ahead for a stamp and coin collectors' club,a model airplane club, a bird club, and a sports culb, every boy in the school can find a non-academic and non-athletic activity in which he is really interested.

The student body, with its student board of control, plans the parties at Hallowe'en, Christmas, and other special days; works out the budget for student projects, and assumes the leadership in all student enterprises. The Wakinis, who style themselves as junir Kiwanis, support scholarship, sponsor good reading, and take an interest in such matters as the Red Cross drives. Many of the classes have special projects. The freshman class has a cup for the "best all around man," who must earn points in scholarship, athletics, and activities.

On January 20 the Central school auditorium will be the scene of one of the most unique performances given in this vicinity. Cho-cho, the clown will perform his clown tricks for the benefit of the school children at 11 a. m. Admission will be 10 cents and the money derived will go into the dental clinic fund.

## *Harry Hatch, Former Sheriff, Passes Away*

John H. (Harry) Hatch, former sheriff and well known resident of San Mateo county, passed away yesterday at the Mills Memorial Hospital in San Mateo. His death followed an illness of only a few days. The deceased was 76 years old. He leaves a widow, Mrs. Mary Hatch; and a brother, Albert E. Hatch of Oakland. Funeral services wil be held in San Mateo tomorrow.

In 1879 Mr. Hatch began his political career when he was elected constable of Halfmoon Bay. Three years later he was elected sheriff and tax collector of the county and served for two terms in these offices. In 1898 he was appointed superintendent of the county farm and remained in that position for four years. Since that time he has been living in San Mateo and has accumulated a large fortune in real estate.

## Station Bandits Stage Hold-up At East Palo Alto
### One Believed Guilty Of Other Crimes In County

Two bandits, one of whom is believed to be one of the pair who staged several hold-ups of service stations in San Mateo recently, on Tuesday night, made a raid upon the service station of K. R. Studay in East Palo Alto and secured $22.40.

Studay was alone at the station Tuesday evening when a car drove into the station and the driver asked Studay to put some oil in the machine. The motorist then gave Studay a dollar, and when the latter opened the cash register to make change, placed a gun against his side and warned him not to move. The bandit then removed all cash from the till of the register and, still covering Studay with the gun, returned to the car which the second man had started. As soon as the bandit had gained the car drove off at a high speed.

Studay had a rifle in the station, and seizing this he fired several shots after the retreating car, but failed to stop the bandit pair.

Neither of the men wore masks, and Studay was able to give a good description of the one who entered the station with the gun. He described him as having a peculiar eye. This would correspond with descriptions of the bandit who held up other stations in this county. Another man who accompanied this one in his former raids was shot and killed in San Jose Monday while trying to hold up a garage.

## Injunction Suit In Redistricting Fight Continued
### Move To Compel The Board To Call An Election Blocked

The injunction suit against the board of supervisors filed by Dante Diandi, coastside rancher was given a hearing yesterday in the Superior Court and continued for a week. The suit was to force the supervisors to show cause why they should not be enjoined from calling an election to redistrict the county as demanded in a referendum petition now before the board.

With this continuance the complaint of intervention filed by Geo. W. Williams, former president of the Burlingame chamber of commerce, a counter move to Diandi's suit, was also continued. The latter attempt to force the redistrict move was filed by Williams on Tuesday. If successful, it will nullify the injunction of the coastside man, and allow the board to call the election.

## *District P.-T. A. To Meet Today*

The regular monthly meeting of the Seventh District, California ongress of Parents and Teachers will be held in the Central School auditorium in San Mateo today. Miss Victoria Roussel, president, will call the meeting to order at 10:30.

Miss Roussel will give her yearly report and also a report of the State conference.

The rest of the day will be devoted to a discussion of parent-teacher problems and to perfectisg plans for the Founder's Day program in February.

Mrs. C. C. Noble of Los Angeles, State Founder's Day chairman, will be the chief speaker at the February meeting.

**Justin Larrecou to Return to Florida**

Justin Larrecou, who arrived a short time tgo from Florida to visit his mother, will return Monday to Miami, where he has a string of fast hounds that are to enter the races there. The racing season has already opened in Florida.

MENLO PARK RECORDER

L. R. [illegible] ..... EDITOR

LAURENCE CAMPBELL ..... ASSOCIATE EDITOR

Published every Friday at Menlo Park, San Mateo County, California.

Entered as second-class mail matter, Act of October 3, 1917, Section 1104, at the Postoffice at Menlo Park, California.

# Looking Glass Leadership

Too many American newspapers are guilty of looking glass leadership. Their editorials are nothing more than mirrors reflecting back the opinions their subscribers like to read. They have but one policy—that of climbing on the bandwagon as soon as it is safe.

These journals of public opinion are engaged in the great game of kidding the public along with soothing sophistries and effervescent aphorisms. They coddle the ignorantia with moronic maxims and accidental axioms. They give oracular utterance to trite truisms, pliant platitudes, and weasle words of wisdom. Their polished polemics are but a barrage of banalities, bunk and ballyhoo.

Boost a bigger and better Corncob center! Promote progress and prosperity! Paint up, clean up! Stand up for the poor man! Live and let live! This is looking glass leadership. Surely no one feels the prick of conscience under the empty influence of such a newspaper. Surely no piano stool politician will stay awake nights worrying.

Brownin or no Browning, all is not right with the world. The national government is faced with the necessity for immediate effective enforcement laws, the economic adjustment of agriculture to a point in which farmers will share prosperity, the recosideration of responsibilities in problems of international peace. Nor are the state and local governments free from problems of great importance.

The publishers of the Menlo Park Recorder, Menlo Park's only home printed newspaper, believe that it is the moral duty of every newspaper to supply news written accurately and impartially on the one hand with careful interpretation on the other hand. No journal need declare "the buplic be damned" nor even suggest that the public be spanked, but it is its duty to interpret the important facts in the life of the community and nation. This the Menlo Park Recorder aspires to do.

# To Pave Or Not To Pave

That is the question. Stanford Park residents have answered that question in the negative. They have declared themselves unanimously opposed to the street improvements recently proposed by the city council in resolution No. 29-1. They have urged the need for careful survey of the whole situation. They have pointed out that "sanitation, drainage, water supply, gas," are involved in the improvement plant.

This is a case in which we should look before we leap. Citizens of Menlo Park trying to develop a modern town must work together for needed improvements, yet great care should be exercised in determining the extent of improvements to be made at any one time. City planning has become a science and city government a business.

It will be well to give careful attention to the statement of the Stanford Park Property Owners Association. On the other hand the point of view of the City Council, which has been elected to supervise a well rounded plan for the improvement of the entire town, should not be misconstrued. Let us all pull to gether, but let agree on which direction first.

# Menlo Opens With Santa Rosa: Breaks Even In Last Two Practice Contests

### OAKS DEFEAT SANTA CLARA FROSH 22-14; LOSE TO STANFORD 47-15

The Menlo junior college basketball team handed the Santa Clara frosh a beating last Wednesday night to the tune of 22 to 14, on their own court.

The Oaks were "hot" in all departments of play, their defense being especially good. The frosh were only able to count one field goal during the first half. The score at this period of the game was Menlo 9, Frosh 4.

**Second Half Hard Fought**

Santa Clara started the second half with a rush, running their total to 8 digits before Menlo could put on the brakes. At this stage, Norgard, Ungar and Cosgrove came through with buckets to put the game on ice for Menlo.

Lancaster played his best game of the season at guard. Rogers was also there on defense, as was Cosgrove when he was shifted from forward to guard. Norgard was high point man with eight digits.

**Menlo Possible Champs**

The game gave a favorable impression of Menlo's possibilities for a championship. The opening lineup was Lancaster and Cosgrove, forwards; Norgard, center; Tod and Rogers, guards.

Suffering a complete reversal of form, the Jaysee five was trounced by the Stanford frosh 47 to 15 last Saturday night at Stanford. Stanford had everything, while Menlo suffered from a "swellhead."

**Menlo Off Game**

The guards were continually being sucked out of position, allowing the Stanford forwards to get in for set-up shots. Ungar played the best game for the Oaks, although his shooting was far below par. Norgar and Cosgrove had an off night, while Sandholt and Tod also showed a let down. Lancaster played the best game the guards put up.

### CONFERENCE COMPETITION TO BE VERY STIFF THIS SEASON

The Menlo junior college quintet start their conference games tonight when they tangle with Santa Rosa junior college in the first of a two game series. The second game will be played tomorrow night. Both games are in Santa Rosa.

The prospects for the team this year are exceptionally bright. The team is much better than that of last year that finished third. The men are bigger and more experienced giving a greater chance for teamwork.

**Opponents Strong**

To offset the bright outlook Sacramento has a team composed of three three season men. The Panthers were just good enough to breeze through the Stanford Frosh for a 13 point victory. San Mateo has eight lettermen who have returned to their fold. Three of these are three-season men. The Bulldogs have practically the same team that waltzed through everyone for the championship last year.

Cal. Poly, who Menlo trounced last year, has reorganized under a new coach and are reported as being quite strong. Santa Rosa and Modesto have a large team and should furnish stiff competition.

**De Groot Gives Outlook**

Coach De Groot expressed the thought that the team should turn out quite well in the conference provided the players realize the importance of every game. "Basketball is going to be on a much higher plane this season and to consider any of the games as being easy will immediately eliminate us from the running. We haven't a set up on the schedule."

# HIGH SCHOOL QUINTET ROUNDING INTO SHAPE

### DE GROOT AND ANNIN COACH DURING SMALLING'S ABSENCE

Due to injuries received in the Army game, "Chuck" Smalling has not been able to take over the reins as high school baskeball coach Messrs. Annin and DeGroot have been coaching the varsity and 130's for the past two weeks.

John von Saltza and Jim Anderson, two good forwards, have returned from last year's team. Simpson, of last year's lightweights, and Clumeck also have shown well at this position. Woodruff seems to be the man for the center berth. The guard positions are weak with Lyon being the only steady man. A wealth of green material is out and Coach Smalling should find little difficulty in producing a well balanced, fighting quintet.

The first game will be played today with the Bates school of San Francisco. Coach Smalling should get a line on his best men as both the 130's and varsity have engagements.

Following is the tentative schedule:

Jan. 18—Menlo vs. Bates.
Jan. 25.—Menlo vs. Damon.
Feb. 1.—Menlo vs. San Rafael.
Feb. 8.—Menlo vs. Tamalpais
Feb. 15.—Damon vs. Menlo.
Feb. 22.—San Rafael vs. Menlo.
March1.—Tamalpais vs. Menlo.

Friends don't like to call you up on your *neighbor's* Telephone

"We have no telephone, but you can get us by calling our neighbor, Mrs. Jones—she doesn't mind."

Sometimes unthinking people say that.

But perhaps Mrs. Jones *does* mind.

*A telephone of your own costs but a few cents a day.*

# Make Your Candy With Vinegar

*By JOSEPHINE B. GIBSON*
*Director, Home Economics Dept., H. J. Heinz Company*

FOR making uniformly fine grained, creamy confections, a few drops of pure cider vinegar, added before cooking, seems actually to perform miracles. The vinegar changes sugar to a form that does not crystalize readily, thus keeping the candy or frosting light and creamy. Even if one is so busy that the cooking pan remains on the fire a moment too long, the candy stays creamy—and vinegar is such a simple thing to use for this purpose; it is always on hand in everyone's kitchen.

The next time you make a frosting, or candy, try adding a few drops of pure cider vinegar. You will be delighted with the results. One teaspoon of vinegar to two cups of sugar is the quantity generally used.

You may enjoy trying some of these delicious recipes today:

*White Mountain Cream Frosting*
2 cups granulated sugar
½ cup cold water
1 teaspoon pure cider vinegar

Cook without stirring, over a very slow fire, until the frosting forms a thread that does not shrink back to the pan and does not have little bubbles on it when dropped from the tip of a spoon. Remove from the fire and pour slowly, beating constantly, over 2 stiffly beaten egg whites. Beat until creamy. Flavor and spread over cake.

*Peanut Butter Fudge* — Mix thoroughly 2 cups granulated sugar, ½ cup milk, 2 heaping tablespoons peanut butter and 1 teaspoon pure cider vinegar. Boil slowly, without stirring, until when a few drops are poured into a cup of cold water a firm ball is formed. Remove from fire, cook until luke warm and beat until creamy. Pour into buttered pan and cut into squares.

*Divinity Fudge*—Mix 2 cups granulated sugar, ½ cup corn syrup, ½ cup cold water and 1 teaspoon vinegar. Cook slowly, without stirring, until the mixture forms an almost brittle ball in cold water. Pour over 2 egg whites, stiffly beaten, and beat until creamy. Add 1 cup nutmeats and vanilla. Pour into a buttered pan and mark into squares.

*Peanut and Cocoanut Balls*—(This recipe is so simple that you may let the children try it.)
1½ cups cocoanut
¼ cup peanut butter
½ teaspoon vanilla

Mix all ingredients thoroughly, and roll into small balls. Chill and serve.

*Pulled Taffy*—
2 cups light brown sugar
¼ cup molasses or corn syrup
2 tablespoons vinegar
2 tablespoons water
½ teaspoon salt
2 tablespoons butter
2 teaspoons vanilla

Boil first five ingredients until, when tried in cold water, the mixture becomes brittle. Add butter and vanilla. Turn into a buttered pan and as soon as cold enough to handle, pull, being careful to use only tips of fingers. Stretch in a long rope and cut into ¾ inch lengths.

TRADE AT HOME

Heat - at a finger's touch

With a furnace or boiler burning gas fuel, the temperature of your home is regulated from upstairs by means of a push-button or a thermostat. No trips to the basement on cold mornings. No bother about heat when friends come. Your home is warm and cheerful. Curtains, wall-paper and furniture retain their fresh cleanliness. There is no smoke or soot about your property.

Even though you have no basement, there are fine types of gas-fired equipment for your home.

Gas is the easiest fuel to control, and when a fuel is easy to control, it is absolutely safe.

For full details about heating equipment that burns the clean gas fuel, see a heating contractor or phone or call at our office.

## $200.00 Paid For One Copper Cent

J. D. Martin of Richmond, Va., is the proud possessor of a check for $200.00 paid him for an old copper cent. The Numismatic Company, Dept. 654, Fort Worth, Texas, who purchased this penny from Mr. Martin, says there are numerous old coins, bills and stamps in circulation for which they will gladly pay big cash premiums. So that you will know the value of old coins and stamps and what to watch for in your change, the Numismatic Company will send for only 4 cents to any reader of thispaper who writes them, a large illustrated coin folder describing some of these wanted articles and the big profits to be made. Better write them today for this large folder so you can post yourself and know just what to look for. Remember that Mr. Martin's knowing the value of his penny meant a difference of $199.99 to him. Without knowing its value that penny might still be in circulation, passing through the hands of thousands until someone like Mr. Martin, who knows old coins, recognized its value. It pays to be posted. Send 4 cents now for the illustrated coin folder. You have nothing to lose, everything to gain.

## MENLO WATER POLO TEAM WORKING OUT

HEDBERG ELECTED CAPTAIN; SUITS FOR TEAM HAVE BEEN ORDERED

The water polo team started practice last Friday at the Stanford pools. Al Hedberg was elected captain of the Splashes.

The locals are using one of Stanford's new pools as their home tank this season, and are working out there on Mondays, Tuesdays and Thursdays of each week.

Thornton, former Stanford acquatic star, has high hopes of turning out a successful team, and has already ordered suits for the men. The well dressed mermen, according to him, will wear blue suits with a white "M" and gold wings, and black and white caps. Following is the tentative schedule of the Junior Water Polo League, which is made up of Menlo, Sequoia and Cal. and Stanford Frosh; each team having booked home arrangements with their opponents.

Jan 31.—Menlo at Sequoia.

Feb. 15.—Menlo vs. Cal. Frosh there.

Feb. 21.—Menlo vs. Sequoia at Stanford.

Feb. 27.—Menlo vs. Stanford Frosh at Stanford.

Mar. 8.—Menlo vs. Cal. Frosh at Stanford.

Mar. 13.—Menlo vs. Stanford Frosh at Stanford.

Tentative practice games are being lined up with the Olympic Club Juniors, and Tamalpais.

## HIGH SCHOOL INTER-CLASS GAMES HELD

SIXTH GRADE AND SOPHS WIN CHAMPIONSHIPS; CRUM GETS TITLE

The high school inter-class basketball and foul shooting contest was held Saturday in the junior college gym. A combined sixth and seventh grade team defeated the combined eighth and ninth grade five by a 6-5 score. In the second division the sophomores won from the seniors 15-9.

All in all it was a big day for the smaller and younger fellows. George Crum, a freshman, won the foul shooting contest in both the lower and upper divisions.

The results of these contests were:

First Division—Won by Crum; second, Boardman; third, Brenner.

Second Division—Won by Crum; second, Odom; third, McComb.

## SOCCER TEAM DEFEATED 3-1

THEW SCORES MENLO'S LONE POINT; GAME HARD FOUGHT

In a hard fought game Half Moon Bay high school proved too strong for the local soccerites defeating them 3-1 at Half Moon Bay, Friday.

Most of the scoring was done in the first period, Half Moon Bay making the first two tallies with Menlo punching in the next point. Thew made the score for Menlo on a pass from the halfbacks.

For the rest of the period and most of the next the ball was passed up and down the field with first one team threatening and then the other. The last score came well towards the end of the game when the center half made good a long shot from the side of the field.

There are a number of men on the Menlo team who after a little more practice will develope into good players. For the team, Taylor, Roddie and Thew did commendable work.

**Joseph Wong Killed in S. F.**

Joseph Wong, a former boarding house keper in the local Chinatown, was killed in San Francisco last week in falling down an elevator. Wong leaves a wife and two small children. The Wongs are educated Chinese, the widow being a high school grauate and a native of San Francisco. The family is well liked here.

**Native Daughters Card Games**

Next Tuesday evening will be the third of a series of card games given under the auspices of the Native Daughters. The person holding the largest score at the end of the contest will be given a valuable prize.

## CITY DADS STAGE BIG SHOW LAST TUESDAY EVENING

The council meeting held Tuesday was largely attended as it was the date set for hearing protests on Stanford Park street improvements. All members were present.

The county tax collector in a communication announced that the sum of $2000.50 was allocated to the city in the first installment of taxes.

The report of the chief of police for the month ending December 31, 1929, showed that the sum of $863.50 had been collected, fines, $723 and licenses collected $140.50. Ninety-seven arrests were made.

D. E. O'Keefe was re-appointed a member of the Las Pulgas Mosquito Abatement District board for a term of two years.

Two supplementary protests from the people of Stanford Park were read and filed.

Weeden moved that proceedings, known as 29-1 be abandoned. He supplemented his motion by saying that the property owners could meet at some future time and again take up similar proceedings. The motion was seconded by Dale. Blake offered an amendment to the motion that all proceedings in the street improvement question be continued to March 11, in the mean time that the matter could be discussed at full length by all concerned. The chairman declared the motion out of order, sustaining Weeden's point of order.

Then followed a long and wearisome discussion on all phases of the vexed question, John Burnett, a very handsome attorney of San Jose, a great grandson of the first governor of California, was the first to speak. He appeared for David Kirby. Burnett urged the improvements on behalf of his client, showing that such a course would redound to the benefit of the city. He hoped the pending motion would not succeed. Attorney David of Palo Alto opposed the improvements at this time, as a majority of the property owners were opposed to going on with the work. He spoke long and often. It was brought out by Blake that Davis represented the Menlo Realty Company that owns $150,000 worth of realty in the area sought to be improved.

Attorney A. J. Stebenne of Redwood City also spoke at some length for the protestants urging that all proceedings at this time be abandoned.

J. J. Harcom roundly chided David for his insincerity, declaring he was hearitly in favor of the improvements planned, and if the land holders above Middle avenue did not desire the improvements they should be excluded.

Sanquinetti caused laughter by stating that he was told by Engineer Armstrong that the pavement would cost $9 a front foot and that children on Columbia avenue, where he lived, would be in danger of their lives if the streets were improved. However he favored the improvements.

Walker favored the postponment, and agreed with Blake that the people be given time to discus the question dispassionately. He favored the best of work and was opposed to cheap pavement.

As a further reason why the proceedings be abandoned Weeden set forth that sewer and water pipes would later be installed in the district and that the proposed new street would be dug up and ruined.

The chairman believed in improvements but was opposed in ramming the proceedings down the throats of the property owners. He favored moderation and study of the question.

The motion to abandon was lost, Dale and Weeden voting yes, and Blake, Walker and Ellis voting, no.

Blake then moved that the proceedings be postponed to March 11, the motion being seconded by Walker was carried, Dale and Weeden voting, no.

On motion of Walker the salary of the janitor was raised from $10 to $15 a month.

It was agreed that no action would be taken this year in withdrawing from the Menlo Park Lighting district.

Building Inspector Harcom presented plans and specifications for a building permit on a lot on Middle avenue asked by Mrs. Gurnsey. Harcom would not issue the permit owing to the manner in which the lot was subdivided. The application for the permit was referred to the city attorney.

The sum of $25 was appropriated as an emergency fund for the repair and upkeep of the city car.

The council adjourned to January 28th.

### Frank M. Campbell Returns

Frank M. Campbell returned last week from a hurried trip to Jerome, Arizona, where he went to be at the bedside of his father, who suffered a paralytic stroke. Campbell, Sr., is connected with the Clarke Copper mining concern in Arizona. He may not recover from his present illness.

### Joseph Veverka Returns

Joseph Veverka has returned from Hollywood, where the screen actresses reign supreme, and has assumed his position as local station agent for the Southern Pacific Company. His numerous friends are pleased to see him once again at his post of duty.

You want prompt relief.

Dr. Miles' Anti-Pain Pills relieve the pains for which we recommend them. They do not upset the stomach, cause constipation, or leave unpleasant after effects.

A package in your medicine cabinet, pocket, or handbag, means fewer aches and pains, greater enjoyment, more efficient work, less loss of time.

Dr. Miles' Anti-Pain Pills have been used with success for thirty years.

Get them at your drug store

### Death of Martin J. McKeown

After days of suffering and weeks and months of sickness Martin J. McKeown, the widely-known real estate operator, answered the final summons at his home on Selby Lane, Atherton, last Monday morning.

Mr. McKeown was born forty-six years ago in Quebec, Canada, and had scarecly reached life's meridan, when the Valley of the Shades claimed him and at a time when the future looked so roseate, so encouraging, so entrancing. By hard work and profitable investments at Quebec he accumulated a sufficient fortune to make the remainder of the journey on life's highway pleasant and easy.

Retiring from busines McKeown came to this section for health and recreation seven years ago. Tiring of inactivity he became associated with M. A. McCann in real estate operations and was successful until his illness prevented further activity in that occupation.

Mr. McKeown loved his home, family and friends. He was the soul of kindness, strong in his religious faith, just and honest in his dealings with his fellow man, a citizen of the highest character and probity, a man of honor and a man actuated with the highest ideals of life. The community in which he lived loses by his death, the state suffers a loss and his family and friends are deprived of a devoted true and loyal companion.

After the celebration of a requiem mass in the Church of the Nativity, Menlo Park, Tuesday morning the remains were lovingly and tenderly laid away in a mausoleum in Holy Cross cemetery, Colma.

The deceased is survived by his widow and a young son, Martin J. McKeown.

### Infant Girl Passes

The month and half old daughter of Mr. and Mrs. R. Banks, nee Walsh, was found dead in bed Monday morning. The little girl was attacked during the night with pneumonia before aid could be given her. The mother did not observe the symptons, although she had seen the child a short time before its death. The attack was sudden and decisive.

### Rainfall Heavy

The rainfall for the past 48 hours has been 1.50 inches, making a total of 6.80 inches for the season against 5.75 inches at this time last year.

## Prison Escape Apprehended By Redwood Police

### Man Arrested Here Is Wanted In Eastern State

Prisoner who escaped from the Pennsylvania state prison more than a year ago, was apprehended this week in Redwood City, and is being held in the county jail for the arrival of Pennsylvania police, who will return him to prison. The convict, Joey Rock, 23, was picked up by the Redwood City police. when he was found loitering about the business section at night. Later he was released, but was watched by the police as a suspicious character.

After his release a telegram was received saying that fingerprints taken by the Redwood City police and sent by them to the bureau of identification, had been identified as those of the escaped convict.

Rock was arrested in a small shack near Atherton by Undersheriff Edward Farrell, accompanied by Chief of Police Collins and Officer Bud Thorpe. He later confessed to having escaped from the eastern prison, where he was serving a term for automobile theft.

### George Nunn Retires

George Nunn, the widely known landscape gardner, has retired from active work and henceforth will find surcease of labor under his own vine and figtree at his home on the highway. Mr. Nunn has earned his rest and recreation for from the time he graduated from the Botanical Gardens of London to the present he has labored among the flowers unceasingly until he has acquired a knowledge of floriculture that but few men possess. He knows his blossoms. Mr. Nunn's labor among the flowers was a labor of love. Never was he so happy as when he lingered where the pink and violet mingled, where the coy fuchsia unfolded its beauty and where the rose burst forth in all its splendor. Now in the evening of his life, Mr. Nunn bids farewell to his floral friends. They and his army of other admirers wish him many years of happines before the twilight comes.
